

RAJ SUDHIR KANK

Mumbai | kankraj24@gmail.com | +91- 8446730959 | GitHub | LinkedIn | Portfolio

BRIEF SUMMARY

AI Engineer specializing in Generative AI and LLM-powered systems, with hands-on experience building production-ready RAG pipelines, semantic search, and enterprise chatbots. Proficient in LangChain, prompt engineering, and LLM integration (OpenAI, Claude, Gemini), backed by strong Machine Learning, NLP, and Computer Vision expertise for document intelligence and automation. Experienced in designing scalable AI architectures and REST APIs that improve business processes and operational efficiency.

WORK EXPERIENCE

AI Engineer — Rigved Technologies

Jun 2025 – Present

AI-Enabled HRMS

- Developed an AI-powered HRMS for attendance, leave management, employee onboarding, and document verification.
- Built OCR-based document processing for Aadhaar, PAN, and employee certificates using OpenCV and Python.
- Implemented attendance anomaly detection and intelligent leave recommendation using machine learning.
- Developed REST APIs to integrate AI modules into HR workflows.

Time Flow

- Developed an enterprise time tracking system for attendance, work-hour monitoring, and workforce analytics.
- Built automated attendance, overtime, and productivity reporting modules.
- Developed analytics to identify attendance trends and irregular employee work patterns.
- Optimized backend services and reporting APIs for HR operations.

Enterprise AI Chatbot

- Developed a RAG-based chatbot for HR policy and employee support using enterprise documents.
- Built document indexing, embedding generation, and semantic search pipelines.
- Integrated LLM APIs to deliver accurate, context-aware responses.
- Improved chatbot performance through prompt engineering and retrieval optimization.

Software Developer Intern — Prodigy InfoTech

Jan 2025 – Feb 2025

- Developed responsive and interactive UI components using HTML, CSS, JavaScript, and ReactJS
- Built functional web applications including a Stopwatch and Tic-Tac-Toe game with smooth animations
- Designed and deployed a personal portfolio website to showcase projects, skills, and technical expertise

Data Analyst Intern — Accenture

Nov 2024 – Jan 2025

- Cleaned, modeled, and analyzed datasets using Excel, SQL, Pandas, and NumPy to extract business insights
- Delivered actionable recommendations for a social media analytics use case based on content trends
- Designed dashboards and reports using Tableau and data visualization techniques
- Presented insights through structured presentations and video reports for stakeholder communication

PROJECTS

Investor IQ – AI-Powered Startup & Investment Matchmaking Platform

Jun 2024 – May 2025

- Developed an AI-driven platform that connects startups and investors for seamless collaboration
- Implemented Generative AI-based proposal generation from startup problem statements
- Designed intelligent success-ratio prediction logic using data analysis to support investor decision-making
- Built advanced search, filtering, and recommendation workflows based on investment amount and startup category

Crop Recommendation System | [See Live](#)

Jun 2023 – Nov 2023

- Built a machine learning-based Crop Recommendation System using soil nutrients (NPK) and climate data
- Trained a Random Forest model for accurate crop prediction
- Performed data preprocessing and feature engineering using Pandas and NumPy
- Developed a Flask API for real-time crop recommendations

TECHNICAL SKILLS

- Generative AI: LLM Integration (OpenAI, Claude, Gemini), LangChain, RAG Pipelines, Prompt Engineering, Embeddings & Semantic Search, Vector Databases (FAISS/Pinecone/Chroma), Custom GPTs, LLM-based Content Generation
- Machine Learning (Foundational): Scikit-learn, TensorFlow, PyTorch, Random Forest, Anomaly Detection
- NLP: Document Parsing, Text Extraction, Named Entity Recognition, Skill & Resume Analysis, OCR + NLP Pipelines, Automated Document Verification
- Computer Vision: OpenCV, Image Processing, OCR (Aadhaar, PAN, Certificates), Document Validation Pipelines
- Backend & APIs: Python, FastAPI, Flask, REST API Development, Microservices
- Programming & Data Libraries: Python, NumPy, Pandas, Matplotlib
- Databases: PostgreSQL, SQLite, Vector Stores (FAISS/Chroma)
- Cloud & DevOps: AWS, GCP, Docker, Kubernetes, CI/CD, Git, GitHub
- Web Technologies: JavaScript, HTML, CSS, ReactJS

EDUCATION

B.E. Information Technology – SIES Graduate School of Technology, Mumbai | CGPA: 8.16 / 10

Jun 2022 – May 2025
